Microglial states
0 Activated-phagocytic / PVM
1 Activated immediate-response / stress
2 Probable neuronal-oligodendroglial contamination / doublet
3 Homeostatic FRMD4A+ / INPP5D+
4 Homeostatic / immunosurveillance
5 Inflammatory / metabolic
6 Neuronal-signature microglia - QC
7 Homeostatic / intermediate
8 Activated / antigen presentation
9 Activated / interferon-inflammatory
10 Donor-specific / Y-linked - QC
11 PVM-like / MRC1+ - donor-enriched
12 Phagocytic / antigen presentation - donor-specific
